

# -ANIMAL HANDS-

Use the expressive qualities of the human hand to create a shape that can be combined with the imagery of animal characteristics and markings in an artistic and technical manner.

- Use your own hands, or another hand visual reference
- Think of poses, shapes, positioning that can align with a potential animal subject
- Imbue your hand with the personality of a recognizable animal, while maintaining the accurate proportions and shapes of fingers, nails, wrist, palm, knuckles, etc.
- Use colored pencil for this composition
