

# Library Bookbag Design

Pencil Line drawing only, no shading. Then Sharpie.

Think of a design that relates to reading or to books.

Does not have to be kid centered. They don't have money. What would a young mom wanting to support the Library but not look like a dork with an ugly book-bag be likely to buy?

A good idea is to make a drawing where the books, or reading, are presented as secondary images in a scene.

If parts of it need to be filled in, make sure you use either hatching lines, stippling, or flat black fill
