

Mixed Media Painting

What is Media

- Media describes the materials an artist uses to make art.
- MIXED Media refers to using more than one medium.
- Painting, collage, papers, 3D elements.

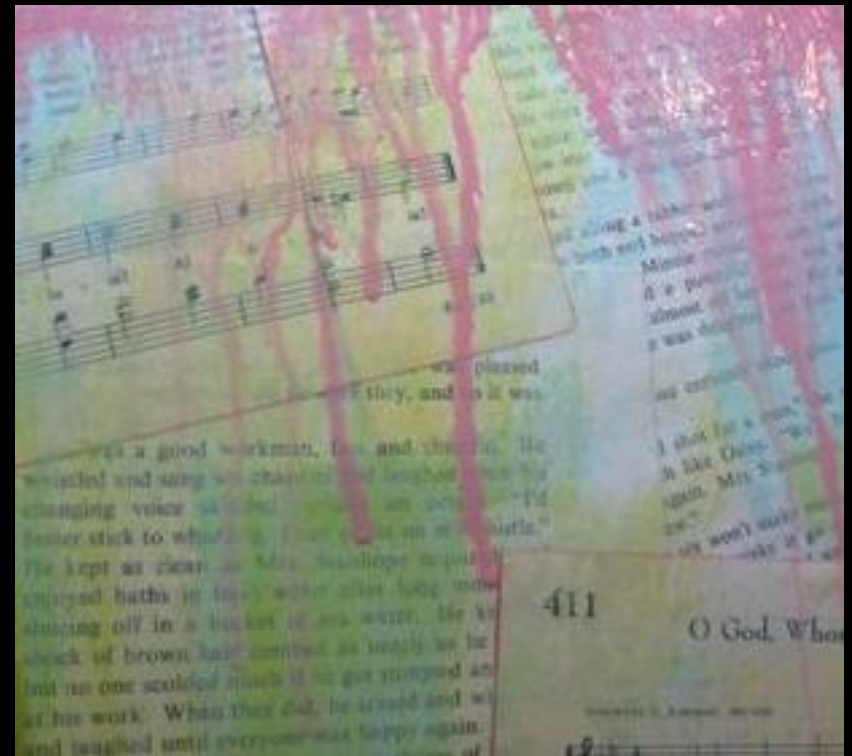

Glue on your textures and papers

- Start by collaging papers, fabrics, photographs etc... to a board.

After you will “white wash” your papers

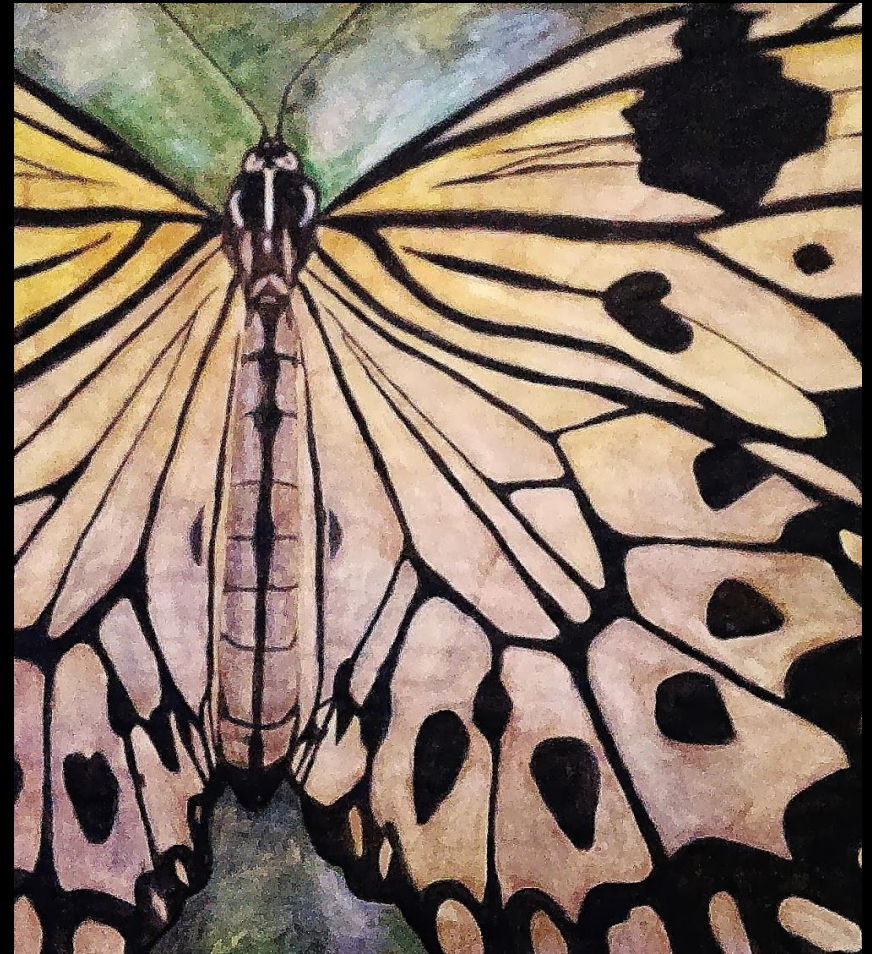

Your Assignment:

- Come up with a GOOD COMPOSITION for your painting
- You have “free choice” over the subject matter although it must be approved by me.
- Sketches are required.

HOWEVER.....to be successful

- If you struggle with painting or with getting ideas then pick a SINGLE OBJECT to focus on and draw WELL!
- If you can't sketch it well, you will not be allowed to paint it.

Ask yourself:

- Do you want text to remain and be visible?
- Do you want it to actually “say something”
- Or do you want only hits of it to remain?

Ma he's mak - ing eyes at me!
