

# Thematic Aquatic

## With Oil Pastels

**Overview:** Using Oil Pastel as your primary media, use the theme “Aquatic” to create an original drawing that exhibits the following:

- 1) A variety of colors blended and overlaid in a professional manner
- 2) A well thought out scene that reflects the theme (note: creative interpretations are encouraged)
- 3) Craftsmanship and quality indicative of a 2<sup>nd</sup> level drawing student
- 4) A thorough application of color that resembles a painting more than a drawing.

### **Process:**

- Find one or more pictures to use as reference
- Combine elements of these references into a new composition
- Do not use a straight up re-creation in your artwork
- You may create a background, environment, or scene that does not make logical sense if you desire

Explore your creative problem solving in a fun, innovative manner!
